October 26-28, 2017 • Austin, Texas

Course Chairs:

William C. McGarvey, MD

Gregory C. Berlet, MD

- Gain practical knowledge to solve surgical challenges
- Learn from renowned foot and ankle faculty
- Earn up to 18.25 AMA PRA Category 1 Credits™

Register now at www.aofas.org/surgicalcx

**AMERICAN ORTHOPAEDIC
FOOT & ANKLE SOCIETY.**

Join Course Chair William C. McGarvey, MD, and Course Co-Chair Gregory C. Berlet, MD, for the **AOFAS Surgical Complications of the Foot and Ankle Course**. Through a series of didactic lectures and case-based discussions, attendees will gain insight into the predictable and unpredictable complications that may arise during a surgical procedure, along with practical, clinical solutions. Experienced faculty will provide in-depth information on various complications, how to avoid them, and how to manage them if they occur. Attendees also will have the opportunity to submit their own cases to discuss with faculty and colleagues.

COURSE TOPICS

Forefoot

- Failed bunion surgery
- Hallux varus
- Recurrent hallux rigidus
- Lesser toe complications: Shortening, floppy, or floating toes

Midfoot

- Failed Lisfranc and column fusions
- Charcot failures
- Coalition failures

Hindfoot

- Flatfoot overcorrection/ Lateral column overload
- Cavus undercorrection
- Triple arthrodesis failures
- Talar AVN

Foot/Limb Alignment

- Supramalleolar osteotomy to address incongruent ankle arthritis: Real or imagined benefit
- Alignment assessment problems
- Charcot ankle

Sports

- Recurrent ankle instability
- Syndesmosis diastasis
- OCD failures
- Lisfranc recurrence in athletes
- Jones fracture recurrence

Trauma

- Calcaneal malunion
- Talar neck malunion
- Navicular fracture nonunion

Ankle Arthritis

- Malaligned ankle replacement
- Stiffness/instability after TAR
- Osteolysis after TAR
- Painful ankle replacement without radiographic abnormality
- Catastrophic failures in TAR
- Failed ankle fusion

Tendon Pathologies

- Achilles failure
- Insertional Achilles disasters
- Peroneal tendon failures

Potpourri

- VTE prophylaxis
- Infection algorithm
- Nerve problems

COURSE INFORMATION

Who Should Attend?

This course is designed for the experienced foot and ankle surgeon, the generalist orthopaedic surgeon interested in expanding their scope of practice into foot and ankle, post-residency fellows and residents who treat acute and chronic problems of the foot and ankle, and allied health professionals who work in foot and ankle care.

Course Objectives

Upon completion of this course, learners should be able to:

- Identify ways to avoid, analyze and manage complications
- Describe the pathoanatomy of complex foot and ankle problems
- Apply an algorithmic approach to manage complications of the forefoot, midfoot, hindfoot, and ankle
- Determine and apply strategies to improve patient outcomes

Statement of Need

A need for this educational activity has been determined based on previous course evaluations and the AOFAS educational curriculum. The content of this course was based on current issues and topics provided by AOFAS membership and leadership. For more information on the AOFAS CME mission, visit www.aofas.org.

Accreditation

The American Orthopaedic Foot & Ankle Society (AOFAS) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education (CME) for physicians.

AMA PRA Credit

The American Orthopaedic Foot & Ankle Society (AOFAS) designates this live activity for a maximum of **18.25 AMA PRA Category 1 Credits™**. Physicians should only claim credit commensurate with the extent of their participation in the activity. Course participants are required to submit a completed evaluation form at the end of the course in order to receive CME credit.

POLICIES AND DEADLINES

Cancellation/Refunds

Written requests must be received at the AOFAS Executive Office by email, fax, or mail by the deadlines shown below.

Email: registration@aofas.org

Fax: 847-692-3315

Mail: 9400 West Higgins Road, Suite 220
Rosemont, Illinois 60018-4975
