11:05-11:15 am - Fused Midfoot with Persistent Pain

John G. Anderson, MD
Grand Rapids, Michigan

My talk on the painful midfoot fusion will be a brief review of the conditions leading to an indication for fusion, methods of fusion, and reasons for pain following fusion. The talk will emphasize ways to evaluate and treat a patient who has ongoing pain following an attempted midfoot fusion, including workup and treatment for infection, nonunion, painful retained hardware and pain syndromes.

11:15-11:25 am - Fused Hallux MP Joint with Persistent Pain

Richard J. Claridge, MD
Scottsdale, Arizona
