

Harbor UCLA Orthopaedic Foot & Ankle Fellowship

Fellowship Description

This fellowship is structured to give the applicant a complete education in adult foot and ankle surgery. You will have the opportunity to work in a university hospital environment as well as multiple private practice environments with Drs. Harris, Aminian and Lee.

A wide spectrum experience is provided with a public hospital as well as private practice patients. The program has an immense diversity of conditions including forefoot disorders, sports medicine with an emphasis on arthroscopic care, ankle arthritis reconstructions including replacement and diabetic foot care. Experience of the fellow is enhanced with resident teaching and clinical research opportunities.

Academic Requirements for Fellowship Year 2020-2021

One research project completed to a publishable form.

Involvement in a second project is likely as the publishable project may be a continuation of a project started by a previous fellow, resident or faculty person. Many of the clinical projects require 2 years, and therefore a combined approach is sometimes necessary.

Lecture presentation to Residents/faculty: 2 such lectures are to be prepared on a foot and ankle topic. (30 minutes plus question time).

Fellowship Benefits for 2020-2021

Salary: \$68,500

Vacation: 2 weeks paid

Holidays: Standard National Holidays (New Years, Memorial Day, 4th of July, Labor Day, Thanksgiving, Christmas)

On Call: None scheduled at this time.

Orthopaedic Meeting Allowance: Flight, Housing, a meal reimbursement of up to \$200 and time off. Attendance at the AOFAS Annual Meeting in 2021 is encouraged to be the selected meeting.
