

AOFAS Journals Social Media Guidelines

The AOFAS asks authors for a brief, succinct summary of their article's key-findings to be posted on AOFAS Journals twitter account, [@AOFAS_Journals](https://twitter.com/AOFAS_Journals), following adequate review.

Please email the highlights and significance of your article to FAIjournal@aofas.org. Note that Twitter limits length to 280 characters, including spaces. Indicate which figure (by number) should be featured with your Tweet and include Twitter handle if you have one.

Guidelines for Twitter Study Summary:

- Promote your study to get the attention of the readers.
- Use objective data from Methods and Results sections of your manuscript.
- Avoid Author's interpretation of the data (Discussion section of the manuscript).
